The Directors will appoint a Chairman from among them, and may also appoint one or several Deputy Chairmen. They may likewise appoint from among their members an executive committee or one or more chief executive officers. The Board will also appoint a secretary, who may or not be a board member, and may also appoint a vice secretary, who likewise may or may not be a board member.

Explanation of the reasons:

In the 2009 Annual Report of the Audit Committee, and regarding the individual and consolidated annual accounts for 2009, it was expressed that the audit report issued on April 23, 2010, indicates that in all significant aspects those accounts represent a true and fair view of the assets, financial position, earnings, changes in net equity and cash flow for the year ending December 31, 2009, with the exception of any effects that may derive from the eventual approval and authorizations described by the auditor in the following paragraph included in both the consolidated, as well as the individual audit report, that is rewritten below:

“As indicated in Note 1.c) of the attached consolidated annual report, in the next few months the Group will implement two capital increases to finalize the restructuring process agreed with its creditor banks with respect to its syndicated loan and bridge loan, fixing May 19, 2013 as the maturity date for both. The capital increases will be approved at the annual shareholders meeting of the parent company, once the pertinent authorizations have been obtained from the securities authorities”.

In the meeting held on April 27, 2010, the Audit Committee reviewed this issue and expressed its confidence that the Group will obtain such authorizations and approval and, thus, will successfully complete its debt restructuring process.

Such capital increases were approved by the Extraordinary Shareholders Meeting held on November 27, 2010, and executed on November 30, 2010, once the required authorizations were obtained. Likewise, the debt restructuring process was signed by the creditor banks.

2.- Direct or indirect professional or commercial transactions of directors (or of persons related to them if they involve operations in excess of 60,000 euro) with the Company or any of its subsidiaries must be authorized by the Board of Directors after it has considered the opinion of the Corporate Governance, Appointments and Remuneration Committee.

Transactions carried out by persons related to directors and which do not exceed 60,000 euro must be authorized by the Corporate Governance, Appointments and Remuneration Committee.

3.- Directors shall refrain from intervening in deliberations concerning matters in which they have direct or indirect interests. In addition to not exercising their voting rights, directors affected by a linked operation must absent themselves from the boardroom during deliberations and voting on such matters.

4.- Authorization of the Board of Directors shall not be required for linked operations that fulfill the following conditions:

- a) Those involving compliance with standard contract conditions applied extensively to multiple customers;
- b) Those involving predetermined prices or fees carried out by the suppliers of the goods and services in question;

5.- Nonetheless, in cases where the conflict of interest is, or reasonably expected to be, of such nature as to constitute a structural and permanent conflict between the Director (or a person related to him/her, or in the case of a proprietary Director, the shareholder or shareholders who proposed or made the appointment or persons directly or indirectly related thereto) and the Company and the companies in its group, it is understood that the Director has no, or no longer has, the required qualifications for the performance of duties for the purposes of Article 21 of this Regulation.

Likewise, Article 33 of the Board Regulations provides that Directors may not provide their professional services to competitors of the Company, its subsidiaries or companies in which it has holdings. This excludes holding posts in companies that have a significant stable stake in the Company’s shareholdings.

In other respects, Article 34 of the Board of Directors Regulations states that:

1. The Board of Directors formally reserves the right to oversee any Company transaction with a significant shareholder.
2. Under no circumstances shall a transaction be authorized if an opinion of the Corporate Governance, Appointments and Remuneration Committee assessing the operation from the point of view of market conditions has not been issued.
3. Nevertheless, authorization of the Board of Directors shall not be required for those transactions that fulfill all of the conditions set forth in Article 31.4 above.

With respect to the above and to ensure transparency, Article 35 of the Board of Directors Regulations provides that the Board of Directors shall include in its annual public reports a summary of the transactions carried out by the Company with its Directors and significant shareholders. This information shall detail the overall volume of the operations and the nature of the most relevant.

In addition, section V of the “Internal Code of Conduct of Promotora de Informaciones, S.A. and its Corporate Group Concerning Matters Involving Securities Markets” provides the following rules for the conflicts of interest:

D. RISK CONTROL SYSTEMS

D.1. General description of the Company and/or its Group’s risk policy, detailing and evaluating the risks covered by the system, together with the justification as to why these systems are deemed adequate for each type of risk.

GRUPO PRISA’s organizational structure and management processes are designed to compensate for the different risks that are inherent in its activities. Risk analysis and control are framed within the Group’s management processes and, as such, involve all of the members of the organization in a supervisory environment that is complemented with preventive measures intended to ensure that Group objectives are fulfilled.

The Group continuously monitors the most significant risks that may affect the principal business units. To do so it uses a risk map as a tool that graphically represents the risks inherent in the Group, which is used to identify and assess risks that

affect the development of the different business units comprising the Group. The parameters evaluated in each risk to define their location on the risk map are the impact and the probability of occurrence of that risk. The identification of these risks and the operative processes in which each of the risks considered are managed are carried out by the Group's Internal Audit Office, which periodically reports the results of its work to the Audit Committee.

The principal risks considered within the framework of the Group's risk management policy can be classified in the following categories:

- a. Strategic risks
- b. Business process risks
- c. Financial management risks
- d. Control of Risks Derived from the Reliability of Financial Information
- e. Information, infrastructures and technology risks

Control systems in place to evaluate, mitigate or reduce the principal risks of the Company and its group:

a. Control of Strategic Risks

The CEO is responsible for the day-to-day management of the company, without prejudice to the general supervisory functions of the Board of Directors and its Executive Committee, to which all powers that may legally be delegated have been granted.

By authority of the CEO, Group management determines the Group's strategic plan, defining the objectives to be met for each business area, developmental goals and growth rates, based on both national and international market conditions, taking into consideration in those plans the appropriate risk levels for each business and market. The Company's general policies and strategies require the Board of Directors' prior authorization. In that regard, the strategic or business plan, as well as management objectives, the annual budgets and investment policies are approved by the Board of Directors.

Compliance with the Strategic Plan and budgets are review periodically, analyzing the degree in which they are being fulfilled, evaluating deviations and proposing corrective measures. Managers from all business units are involved in this process, as well as the general and functional committees that issue their reports to senior group management.

b. Control of Business Process Risks

To develop and supervise business activity, the Group relies on a decentralized organization divided into specialized business units with coordinating entities such as the Management of Business Committee, which carry out analysis and supervisory functions with respect to both the evolution of business activities, as well as the operational environment and problems of the business units, and the Operative Efficiency Committee, which coordinates the business units to improve the efficiency of Group processes.

Transactional business risks, as well as operational, commercial, legal, fiscal and other types of risks are monitored by their respective organizations, with supervisory mechanisms in place for each at the corporate level. For example, the Group's fiscal management unit monitors compliance with current tax legislation in each of the geographic and business segments in which it carries out its activity, and manages risks arising from different interpretation of rules that the competent tax authorities may offer in each case. In other respects, risks inherent in radio and television, which are generally regulated activities subject to temporary administrative concessions or licensing, are evaluated by the general management of their respective business units and supervised at the corporate level by the Secretary General.

Likewise, commercial risks related to advertising and matching our offer of services and product to client demands are continuously monitored by the Group's Commercial Management and by a specialized Advertising Committee. In that regard, we should underscore that, in comparison with other companies in the sector, Group revenue is less dependent on advertising commercial cycles due to the Santillana publishing business and, above all, the pay television audiovisual business, which show periodic and recurring fluctuations. In effect, the Group's top-line activities are based on turnover from subscribers to its digital television platform, which generated 32.35% of the Group's operating turnover in 2010. In other respects, the Transversal Business Committee coordinates the different business units that analyze business opportunities as well as joint actions among business units.

c. Control of Financial Management Risks

- Financing Risks

The Group's financial obligations are described in Note 12, "Financial Debt" in Prisa's 2010 Consolidated Annual Report.

In that regard, the Group's debt level involves certain payment obligations, interest payments and amortization of principal, as well as certain operational limits derived from the financing contracts undertaken. To meet its financial obligations, during 2010 the Group concluded a process to restructure its financial debt, reaching a refinancing framework agreement with its creditor banks that envisions certain changes in the terms and conditions of its principal financing contracts including, among others, an extension of the due dates of the Company's bridge loan and a series of bilateral credit lines until May 19, 2013. Likewise within the framework of its debt restructuring process, the Group has reinforced its capital structure through a capital increase that generated cash in the amount of 650 million euros. These mechanisms reduced the Group's debt gearing and increased its working capital.

Concerning the management of its short-term financial obligations, the Group envisions strictly following the maturity schedule for its financial debt, as well as maintaining lines of credit and other means of financing that will enable it to cover its short, medium and long-term cash needs. In that regard, the Group maintains a centralized treasury management system and a Treasury Account, Debt and Capex Committee that monitors the Group's expenditures weekly, as well as making periodic consolidated financial forecasts that optimize available resources to meet the financial needs of each business and to service the debt.

- Exposure to Interest Rate Risks

The Group is exposed to interest rate fluctuations, since all of its debt with financial entities is at variable interest rates. In that regard, the Company takes out contracts to cover interest rate risk, basically by means of contracts that ensure maximum rates of interest.

- Exposure to exchange rate risks

The Group is exposed to exchange rate fluctuations, basically due to financial investments in American companies, as well as income and profit from those investments. During 2010 revenue from the international area and Latin America respectively accounted for 20.07% and 20.21% of the Group's consolidated income.

In that regard, the Group is exposed to potential variations in the exchange rates of the different currencies in which it holds debt with financial institutions. At December 31, 2010 the weight of non-euro currencies with respect to total Group debt was 1.36%.

In this context, and with a view to lessening this risk, based on its forecasts and budgets the Group maintains risk-coverage contracts to offset exchange rate variations (basically exchange risk insurance, forwards and currency options).

- Exposure to Risks Related to the Price of Paper

The Group is exposed to the possibility of variations in its results due to fluctuations in the price of paper, the essential raw material in some of its production processes. The Group has set up a strategic coverage program through which, by means of long-term contracts, it can cover the price of a given percentage of the volume of paper to be consumed in the mid term. In 2010 paper consumption represented 9.51% of the Group's total purchases and consumption.

d. Control of Risks Derived from the Reliability of Financial Information

The process implemented to manage and control financial and accounting information is based on:

- An adequate organizational structure that maintains a separation of functions in administrative and accounting procedures, which provide the basis for preparing financial and accounting information, as a means to mitigate risks of manipulation or fraud. In that regard, mention should be made of the function of the Group's Financial Management, which assigns responsibilities and authority in the different areas involved in generating this type of information.

- Permanent updating of financial information rules and systems

In that regard, mention should be made of the project underway to integrate and standardize information systems by implementing a single system of financial information for all group business units. During past years this single information system was implemented in the Group companies located in Spain, the United States, Colombia, Mexico and the radio broadcasting companies located in Argentina. During 2010 it was implemented in the publishing companies located in Argentina and Chile. This system will continue to be implemented in the remaining Group companies over the next few financial years.

- A system for reviewing economic and financial information regulated in manuals, instructions and internal regulations (valuation and accounting policy manual, instructions for closing accounts, annual economic and financial information calendar, corporate accounting plan, intra-group operations and conciliation regulation) and verification of compliance with internal control systems through internal and external audits. In that regard, simultaneously with the implementation

of a single financial information system, conversion to a common chart of accounts for all Group companies has likewise been undertaken, along with the training required to ensure the adequate application of the single accounting plan.

The objective of the adoption of the same chart of accounts by all companies is to facilitate consolidation and reporting, analysis and monitoring of financial information, as well as to provide all Group companies with a common financial language.

e. Risk control in information systems, infrastructures and technology

The Corporate Security Department manages Grupo Prisa’s overall security in collaboration with the office of the Group’s Secretary General in data protection and the Human Resources Department in information security, workplace risk prevention and business continuity. In line with the increased internationalization of the business, global security management includes consulting in the areas of physical and network security and the adoption of coordinated measures to reinforce protection of the confidentiality, integrity and availability of information and information systems, as well as the security of the Group’s remaining assets –personnel, processes, installations and content. During the 2010 fiscal year these activities were especially relevant in establishing the new externalized Information Technologies and Communications model.

To achieve this, in compliance with the Corporate Security Policy, a Corporate Security Management System (CSMS) has been implemented, as a project that commenced in 2008 with the support of an important technology company and which will be completed over several years. Controls derived from this system are applied in the following areas: general policies, security policy, organizational structure security, asset classification and control, personnel security, physical and environmental security, management of communications and operations, management of control centers and externalized security, systems development and maintenance, access control, security incidents management, and business continuity and compliance.

Through this System the Group integrates all security areas of its different business units, establishing general rules and controls to be applied throughout the Group or specific ones for the Business Units.

The Group periodically carries out projects in communications security, incident management, security auditing, IT contingency plans, vulnerability analysis and alert systems. Projects planned for 2011 include a data loss prevention plan (DLP), a security operations center and an automatic alert system. Concerning physical security, risk analysis was conducted with respect to certain assets, and the resulting contingency plan for physical risks is projected for 2011. Likewise, centralization of security management is in its final stages in the different headquarters, strengthening the Comprehensive Corporate Control Center, which coordinates the Group’s various Control Centers with respect to any physical or network security incident. Moreover, physical security resource optimization studies are being carried out to reduce costs and implement technological improvements.

In addition, Grupo Prisa has a Technological Observatory to identify risks and business opportunities afforded the Group as a result of technological developments.

Prior to the celebration of the Extraordinary Shareholders Meeting held on November 27, 2010, the Board of Directors in full presented its resignation to facilitate the approval of the resolution provided for in the agenda of the Shareholders Meeting regarding the number of directors and appointment of directors, which was also approved in full at the shareholders meeting.

The modification of the Bylaws was passed separately by groups of articles that were substantially independent.

- 6. Companies shall allow split votes so that financial intermediaries who are the shareholders of record acting on behalf of different clients may cast their votes according to their clients' instructions.**

See section: E.4

Complies

- 7. The Board of Directors shall perform its duties with unity of purpose and independent criteria, afford all shareholders equal treatment, and be guided by the best interests of the company, which may be defined as constantly seeking to maximize the company's value over time.**

The Board shall ensure that in its relationships with stakeholders, the company abides by all laws and regulations, fulfills its obligations and contracts in good faith, respects the customs and good practices of the sectors and territories in which it does business, and observes any additional principles of social responsibility that it has voluntarily accepted.

Complies

- 8. The core components of the Board's mission shall be to approve the company's strategy and organize its implementation, as well as to supervise and ensure that management meets its objectives and pursues the company's interests and corporate purpose. In that regard, the Board in full shall approve:**

- a) The company's general policies and strategies, and in particular:**
 - i) The strategic or business plan, management targets and annual budgets;**
 - ii) Investment and financing policy;**
 - iii) Design of the structure of the corporate group;**
 - iv) Corporate governance policy;**
 - v) Corporate social responsibility policy;**

- vi) **Remuneration and evaluation of the performance of senior management;**
- vii) **Risk control and management policy, as well as periodic monitoring of internal information and control systems.**
- viii) **Policy on dividends and treasury shares, and the limits applied thereto.**

See sections: B.1.10, B.1.13, B.1.14 and D.3

b) The following decisions:

- i) **At the proposal of the company’s chief executive, the appointment and removal of senior managers, as well as their compensation clauses.**

See section: B.1.14.

- ii) **Remuneration of directors, as well as in the case of executive directors, additional compensation for their executive duties and other conditions that must be respected in their contracts.**

See section: B.1.14.

- iii) **Financial information that listed companies must periodically disclose.**
- iv) **Investments or operations of any nature, which due to the amount involved or their characteristics are considered as strategic, unless they require the approval of the shareholders at the annual meeting;**
- v) **The incorporation or acquisition of interest in special-purpose entities or those domiciled in countries or territories considered tax havens, as well as any similar transactions or operations, which due to their complexity may impair the group’s transparency.**

c) Operations that the company conducts with directors, significant shareholders, shareholders represented on the board, or with persons related thereto (“related-party transactions”).

However, board authorization shall not be required for related-party transactions that simultaneously meet the following three conditions:

- 1. Those governed by standard-form contracts applied equally to a large number of clients;**
- 2. Those made at prices or rates generally set by the supplier of the goods or services in question;**
- 3. Those whose value does not exceed 1% of the company’s annual revenue.**

It is recommended that the Board approve related-party transactions only after having received a favorable opinion from the Audit Committee or, if applicable, any other committee exercising that function; and that directors affected by the transactions should neither vote nor be present at the meetings in which the Board deliberates and votes thereon.

It is recommended that the Board not be allowed to delegate the powers attributed to it herein, with the exception of those mentioned in sections b) and c), which for reasons of urgency may be exercised by a delegated committee, and subsequently ratified by the board in full.

See sections: C.1 and C.6

Partially complies

The company complies with all points with the exception of b) i), which is not deemed necessary.

- 9. In order to achieve effectiveness and full participation, it is recommended that the Board have no fewer than five and no more than fifteen members.**

See section: B.1.1

Complies

- 10. External directors representing significant shareholdings and independent directors should constitute a broad majority of the Board, while the number of executive directors should be kept at a necessary minimum, taking into account the complexity of the corporate group and the percent of the executive directors' interests in the company's share capital.**

See sections: A.2, A.3, B.1.3 and B.1.14.

Complies

- 11. If there is any external director who cannot be considered as either independent or representing a significant shareholding, the company shall explain that circumstance and his relationships either with the company, management, or its shareholders.**

See section: B.1.3

Complies

- 12. Among external directors, the relationship between the number of directors representing significant shareholdings and independent directors shall reflect the proportion existing between share capital represented by directors representing significant shareholdings and the rest of the company's capital.**

This criterion of strict proportionality may be relaxed so that the weight of significant shareholdings may be greater than the percentage of the total capital that they actually represent in the following cases:

- 1. In large cap companies where few or no equity stakes meet the legal threshold to be considered significant shareholdings, but where there are shareholders with share packages having a high absolute value.**
- 2. In companies in which many shareholders are represented on the board, and who are not otherwise related.**

See sections: B.1.3, A.2 and A.3

Complies

- 13. Independent directors should comprise at least one third of all board members.**

See section: B.1.3

Complies

14. The Board shall explain the nature of each director to the shareholders at the Annual Shareholders Meeting that is to ratify his/her appointment, and confirm or, if applicable, review that status annually in the Annual Report on Corporate Governance, after having verified it with the Appointments Committee. That report should likewise explain the reasons for appointing directors representing significant shareholdings at the request of shareholders holding less than 5% of capital stock; and explain the reasons, if applicable, for having denied formal requests for representation on the board from shareholders whose stake is equal to or higher than the stake of others whose requests to appoint directors representing significant shareholdings were granted.

See sections: B.1.3 and B.1.4

Complies

15. When there are few or no female directors on the Board, explain the reasons and the measures adopted to correct that situation, and, specifically, those that the Appointments Committee takes when filling new vacancies to ensure that:

- a) Selection procedures are not implicitly biased against the selection of female directors; and
- b) The company deliberately seeks and includes among potential candidates women who meet the required profile.

See sections: B.1.2, B.1.27 and B.2.3.

Complies

16. The Chairman, as the person responsible for the efficient operations of the Board, shall ensure that all directors receive in advance sufficient information, stimulate debate and the active participation of board members at board meetings, ensure that they can freely take sides and express their opinions, and organize and coordinate with the chairmen of the relevant committees periodic evaluations of the board, as well as, when applicable, the chief executive officer.

See section: B.1.42

Partially complies

There is compliance with the first part of this recommendation, that is, the Chairman ensures that directors receive sufficient information prior to board meetings, and stimulates debate and active participation on the part of the directors, ensuring that they can freely express their positions and opinions.

With respect to the last part of this recommendation, it is considered sufficient in accordance with Article 5 of the Board of Directors Regulation that the board carry out a periodic evaluation of its operations and composition, after having received the opinion of the Corporate Governance, Appointments and Remuneration Committee (Article 25 of the Board of Directors Regulation). The evaluation considers the board's functions as a whole, and not each individual member in particular.

17. When the Chairman of the Board is also the company's Chief Executive Officer, one of the independent directors should be empowered to request that a meeting of the board be called or that new items be included on the agenda, to coordinate and reflect the concerns of external directors and to direct the board's evaluation of the Chairman.

See section: B.1.21

Not applicable

18. The Secretary to the Board shall take special steps to ensure that the Board's actions:

- a) Adhere to the spirit and letter of the laws and their implementing regulations, including those issued by regulatory bodies;
- b) Conform to the provisions of the Company Bylaws, Shareholders Meeting Regulation, Board of Directors Regulation and other company regulations;
- c) Take into account the corporate governance recommendations contained in the Unified Code that the company has accepted.

And to ensure the Secretary's independence, impartiality and professionalism, his/her appointment and removal shall be submitted to the Appointments Committee for its opinion and approved at a meeting of the full board; and this procedure for appointment and removal should be set forth in the Board of Directors Regulation.

See section: B.1.34

Partially complies

The opinion of the Corporate Governance, Appointments and Remuneration Committee is not required with respect to the removal of the Secretary.

19. The Board shall meet with the frequency required to enable it to efficiently perform its functions, following a schedule of dates and matters to be determined at the beginning of the year, and each director shall be allowed to propose additional items on the agenda not initially included.

See section: B.1.29

Complies

20. Directors' absences from board meetings shall be kept to a minimum and shall be quantified in the Annual Report on Corporate Governance. Directors who have no choice but to appoint a proxy shall issue proxy voting instructions.

See sections: B.1.28 and B.1.30

Partially complies

Proxies may be appointed without instructions.

21. When directors or the Secretary express concerns about a given proposal, or in the case of directors, about the performance of the company, and these concerns are not addressed by the Board, the person expressing those concerns may request that they be recorded in the minutes.

Not applicable

22. The Board shall evaluate annually:

- a) **The quality and efficiency of the Board's operations;**
- b) **The performance of the Chairman of the Board and the Chief Executive Officer, based on the Appointments Committee report;**
- c) **The performance of the board committees, based on the reports they submit.**

See section: B.1.19

Explain

During the last year the Board of Director has not conducted its evaluation because the company has been in transition, occupied with its financial restructuring and with the strengthening of its capital structure.

- 23. All directors shall be able to exercise their right to receive the additional information they deem warranted concerning matters of the Board's competence. Unless otherwise stipulated in the Bylaws or the Board of Directors Regulation, they should make such requests to the Chairman or Board Secretary.**

See section: B.1.42

Complies

- 24. All directors shall have the right to obtain from the company the guidance they require in the performance of their duties. The company shall establish suitable channels for the exercise of this right, which in special circumstances may include outside assistance provided at the company's expense.**

See section: B.1.41

Complies

- 25. Companies shall set up an orientation program to promptly provide new directors with sufficient knowledge of the company and its rules of corporate governance, while likewise offering directors ongoing training programs when circumstances so warrant.**

Partially complies

In practice this information is provided without a formal program.

- 26. Companies shall demand that directors devote the time and effort necessary to efficiently perform their duties, and in that regard:**

- a) **Require directors to inform the Appointments Committee of other professional obligations they have, in the event that they might interfere with the dedication their directorships require;**
- b) **Establish limits as to the number of boards of directors on which their directors may sit.**

See sections: B.1.8, B.1.9 and B.1.17

Partially complies

Article 30 of the Board of Directors Regulation sets forth the general obligations of directors and Article 31 the rules concerning conflicts of interest of which the company must be notified through the Corporate Governance, Appointments and Remuneration Committee. However the number of boards on which directors may sit is not limited.

27. The proposed appointment or reelection of directors that the Board submits at the Annual Shareholders Meeting, as well as their provisional appointment by cooptation, shall be approved by the Board:

- a) **At the proposal of the Appointments Committee in the case of independent directors.**
- b) **After receiving the prior opinion of the Appointments Committee in the case of all other directors.**

See section: B.1.2

Complies

28. Companies shall provide on their websites and maintain updated the following information concerning their directors:

- a) **Professional profile and biography;**
- b) **Other boards of directors on which they sit, whether listed companies or otherwise;**
- c) **Indication of the type of director, and in the case of directors representing significant shareholdings, the identity of the shareholders whom they represent or with whom they maintain business relations.**
- d) **Dates of first and subsequent appointments as director, and;**
- e) **Shares in the company or stock options that the director holds.**

Complies

29. Independent directors shall not remain as such for a continuous period exceeding twelve years.

See section: B.1.2

Explain

It has not been considered necessary to establish a limit, since it is not clear why after twelve years a director would lose his independence.

30. Directors representing significant shareholdings shall resign when the shareholders they represent sell all of their interests in the company. They shall also do so when the shareholders in question reduce their shareholdings to the extent that would require a reduction in the number of directors representing those shareholders.

See sections: A.2, A.3 and B.1.2

Complies

31. The Board of Directors shall not propose the removal of any independent director before he concludes the term in office mandated in the bylaws for

which he was appointed, unless after receiving the opinion of the Appointments Committee, the Board deems that there is just cause to do so. In particular, just cause shall be deemed to exist when the director has failed to fulfill the duties inherent in his post or incurs in any of the circumstances described in paragraph 5 of Section III of the definitions contained in the Code.

The removal of independent directors may also be proposed when a takeover bid, merger or similar corporate operation resulting in changes in the company's capital structure warrant changes in the Board based on the proportionality criterion set forth in Recommendation 12.

See sections: B.1.2, B.1.5 and B.1.26

Complies

32. Companies shall establish rules that oblige directors to inform and, if warranted, to resign in situations that may impair the credit and reputation of the company, and specifically, rules that oblige them to inform the Board of any criminal process in which they are indicted, as well as the progress of any subsequent proceedings.

If a director is indicted or legal proceedings are commenced against him for any of the offenses set forth in Article 124 of the Corporations Law, the Board shall examine his case as soon as possible and, in view of the specific circumstances, decide whether the director should continue in his post. The Board shall provide details of the foregoing in the Annual Corporate Governance Report.

See sections: B.1.43, B.1.44

Partially complies

Article 21.2.b) of the Board of Directors Regulation provides that directors shall offer their resignations to the Board of Directors and, if the Board deems it warranted, effectively resign *“when based on a criminal offense they are indicted in ordinary felony proceedings or have been convicted in a fast-track criminal proceeding.”*

33. All directors shall clearly express their opposition when they consider any proposed decision submitted to the Board to be contrary to the company's interests. Independent directors and others not affected by a conflict of interest shall do likewise when the decision in question could prejudice shareholders not represented on the Board.

When the Board adopts significant or reiterated decisions about which a director has expressed serious reservations, he shall draw the pertinent conclusions and, if he chooses to resign, explain his motives in the letter referred to in the following recommendation.

This Recommendation shall also apply to the Secretary to the Board, whether a board member or not.

Complies

34. Any director who resigns or otherwise leaves his post before the end of his tenure shall explain his motives in a letter addressed to all of the members of the Board. Regardless of whether the resignation is disclosed as relevant information, the reasons therefore shall be set forth in the Annual Corporate Governance Report.

See section: B.1.5

Complies

35. The remuneration policy approved by the Board shall as a minimum include the following points:

- a) Amount of fixed sums, detailing, if applicable, allowances for participating on the Board and its committees, and an estimate of the resulting annual fixed remuneration;
- b) Variable remuneration, including in particular:
 - i) The type of directorships to which it applies, as well as an explanation of the relative weight of variable remuneration vis-à-vis fixed remuneration.
 - ii) Criteria for evaluating performance on which the right to perceive remuneration in shares, stock options or other variable compensation is based;
 - iii) Parameters and justification for any annual bonus system or other non-cash benefits; and
 - iv) An estimate of the total amount of variable remuneration in the proposed remuneration plan, based on performance or fulfillment of the objectives taken as a reference.
- c) Principal characteristics of any benefits systems (such as supplementary pensions, life insurance and similar arrangements) with an estimate of their equivalent annual cost.
- d) Conditions that must be respected in the contracts of those exercising senior management duties such as executive directors, among which should be included:
 - i) the duration;
 - ii) terms for notices of termination; and
 - iii) any other clauses covering hiring bonuses, as well as compensation or golden parachutes in the event of early termination of the executive director's contractual relationship with the company.

See section: B.1.15

Complies

36. Any remuneration that includes stock in the company or group companies, stock options or instruments pegged to stock prices, variable retribution linked to company performance or benefit plans shall be limited to executive directors.

This recommendation shall not include delivery of stock when it is contingent upon the directors' holding the stock until the end of their tenure as director.

See sections: A.3 , B.1.3

Complies

- 37. Remuneration of external directors shall be sufficient to compensate them for their commitment, qualifications and the responsibility that the post entails, but not so high as to compromise their independence.**

Complies

- 38. Remuneration linked to company performance shall take into account any possible qualifications stated in the external auditor's Audit Report that may reduce those results.**

Explain

This hypothesis has not been considered.

- 39. In the case of variable remuneration, remuneration policies shall include precise technical safeguards to ensure that that remuneration actually reflects the professional performance of the beneficiaries and is not simply derived from the general evolution of the markets or the company's sector of activities or other similar circumstances.**

Complies

- 40. As a separate item on the agenda, the Board shall submit to a non-binding vote at the Annual Shareholders Meeting a report on the remuneration policy for directors. That report shall be made available to shareholders, either separately or in any other form the company considers appropriate. The report shall focus specifically on the remuneration policy approved by the Board for the current year as well as, if applicable, the policy for future years. It shall include all matters addressed in Recommendation 35, except those which would require the disclosure of sensitive commercial information. It shall underscore the most significant changes in the policies applied during the past year for which a shareholders meeting was held, and shall likewise include an overall summary of how the remuneration policy was applied over the last year.**

The Board shall also review the role played by the Remuneration Committee in the preparation of the remuneration policy and, if external advice was sought, disclose the identity of the consultants who provided that advice.

See section: B.1.16

Partially complies

The Board of Directors submits its annual remuneration policy for the Board of Directors and management team to the shareholders for their approval at the Annual Shareholders Meeting, as an integral part of the Management Report submitted with the annual accounts (and not as a separate non-binding item on the agenda), which is one of the solutions suggested in the Recommendation of the European Commission of December 14, 2004 concerning promoting an adequate remuneration system for directors of listed companies.

41. The Annual Report shall itemize the individual remuneration of the director for the year and include:

- a) **An individualized breakdown of each director’s remuneration, including, if applicable:**
 - i) **Allowances for attending meetings or other fixed remuneration as director;**
 - ii) **Additional remuneration for chairing or serving as a member of a board committee;**
 - iii) **Any remuneration that includes a share in profits or bonuses, and the reasons why it was awarded;**
 - iv) **Contributions on behalf of the director to defined-contribution pension plans; or any increase in the director’s vested rights with respect to defined-benefit schemes;**
 - v) **Any compensation agreed or paid in the event of termination of his duties;**
 - vi) **Remuneration perceived as director from other group companies;**
 - vii) **Remuneration of executive directors who perform senior management duties;**
 - viii) **Any other remuneration in addition to the above, whatever its nature or the group company from which it originates, especially when it may be considered a related-party transaction or when its omission would distort the fair view of the total remuneration received by the director.**
- b) **An individualized breakdown of any stock, stock option or any other instrument pegged to share prices granted directors, including:**
 - i) **The number of shares or options granted during the year, and the conditions for exercising them;**
 - ii) **The number of options exercised during the year, indicating the number of shares affected and the exercise price;**
 - iii) **The number of shares pending exercise at the end of the year, indicating the price, date and other requirements for exercising them;**
 - iv) **Any change during the year in the conditions for exercising options already granted.**
- c) **Information concerning the relationship during the past year between the remuneration obtained by executive directors and profits, or other means for measuring the company’s performance.**

Explain

The Company complies with the provisions of Article 260 of the Corporations Law that provides that the Annual Report must state the amount of remuneration paid directors “globally and by type of remuneration.” No legal provision provides for reporting the director’s remuneration individually, and the Company does not deem it appropriate to do so.

42. When there is a Delegated or Executive Committee (hereinafter, the “Delegated Committee”), its structure and composition with respect to the different categories of directors shall be similar to the Board’s, and its secretary shall be the Secretary to the Board.

See sections: B.2.1 and B.2.6

Partially Complies

The Secretary of the Executive Committee is the same as the Board of Directors. However, the composition of the Executive Committee is not similar to that of the Board of Directors, as explained in section B.2.6 of this report

- 43. The Board shall always be informed of the matters discussed and decisions adopted by the Delegated Committee and all board members shall receive a copy of the minutes of the meeting of the Delegated Committee.**

Complies

- 44. In addition to the Audit Committee provided for in the Securities Market Law, the Board of Directors shall form one or two separate committees for appointments and remuneration.**

The rules governing the composition and operations of the Audit Committee or the Appointments and Remuneration Committee (or committees) shall be included in the Board of Directors Regulation and stipulate the following:

- a) The Board shall designate the members of those committees, taking into account the knowledge, skills and experience of the directors and members of each committee; shall deliberate on their proposals and opinions; and the committees shall report on their activities and work at the first full board session following their meetings;**
- b) These committees shall be composed exclusively of a minimum of three external directors. The foregoing is without prejudice to the fact that executive directors or senior managers may attend committee meetings when expressly agreed by the committee members.**
- c) The committees shall be chaired by independent directors.**
- d) Committees may seek external advice when it is deemed necessary for the performance of their duties.**
- e) Minutes shall be taken of committee meetings, and copies thereof shall be sent to all board members.**

See sections: B.2.1 y B.2.3

Partially complies

The only aspect of this recommendation with which the company is not in compliance is providing board members with copies of the minutes of committee meetings. However, their respective chairpersons report to the Board all matters discussed at the meetings and, when applicable, present proposed resolutions for the Board's approval.

- 45. Supervision of compliance with internal codes of conduct and rules of corporate governance shall be vested in the Audit Committee, or if there is a separate committee, in the Corporate Governance Committee.**

Complies

- 46. The members of the Audit Committee and especially its chairman shall be appointed taking into account their knowledge and experience in the area of accounting, audits and risk management.**

Complies

50. The Audit Committee shall:

- 51. The Audit Committee shall be able to meet with any employee or manager of the company, and may even require that they appear without the presence of another manager.**

Complies

- 55. In addition to the functions indicated in the preceding Recommendations, the Appointments Committee shall perform the following:**

G. OTHER INFORMATION OF INTEREST

If you believe there are relevant principles or aspects concerning the corporate governance practices applied by your company that have not been presented in this report, please identify and explain their content below.

- It should be preliminarily underscored that:

During 2010 PRISA has signed an agreement ("Business Combination Agreement" or "BCA") on March 5, 2010, with the US company Liberty Acquisition Holdings Corp. (which has the legal form of a "special purpose acquisition company"), consolidated into a new text called the "Amended and Restated Business Combination Agreement", in August 2010.

Under this agreement, PRISA has carried out certain corporate actions and particularly two capital increases, which have involved a change in the shareholding structure of the Company and also the amendment of the Bylaws and the internal rules of the Company.

The capital increases are the following:

i) Capital increase by issuance of 241,049,050 Class A ordinary shares, issued in exchange for a cash consideration with preemption rights implemented through warrants (the Warrants). PRISA Warrants quote on the platform of the Spanish Stock Warrants, the Warrants have Prisa Class A shares as underlying titles, their exercise price amounts 2 euros and they may be exercised on a monthly basis for 42 windows (up to the date of their expiration on June 5, 2014).

ii) Capital increase by issuance of 224,855,520 Class A Shares and 402,987,000 non-voting convertible Class B shares, issued by compensation in kind, which was subscribed by contribution of all common shares and warrants of Liberty Acquisition Holdings, Corp., once absorbed by its subsidiary, Liberty Acquisitions Holdings Virginia, Inc. (the company resulting from the merger, hereinafter "Liberty").

Ordinary shares and convertible shares quote in the Stock Exchanges of Madrid, Barcelona, Bilbao and Valencia, through the Spanish Stock Exchange Interconnection System ("Sistema de Interconexión Bursátil Español", SIBE) and also as American Depositary Shares (ADS) in the New York Stock Exchange.

Holder of ADS which represent Class A and Class B shares have the right to apply to the Depositary of such ADS (Citibank NA) the direct delivery of the corresponding Class A and Class B shares and their consequent trading on the

Spanish Stock Exchanges.

Likewise, each Class B convertible non-voting share will be transformed into a Class A common share, at any time, at the election of its holder. 42 months after the date of issue of the Class B convertible non-voting shares (that took place on November 27, 2010), those shares mandatorily will be transformed into Class A common shares.
