

2015 ANNUAL RESULTS

February 2016

PRISA RETURNS TO PROFITABILITY. 5.3 MILLION EUROS NET PROFIT

Adjusted EBITDA of 288.7 million (+10.3%)

- This operating growth is driven by:
 - The growth of the business in Spain driven by the recovery of the advertising market and a greater education campaign.
 - The favorable evolution of education campaigns in LatAm in local currencies.
 - The digital transformation growth.
 - The cost control.
 - Negative FX impact, mainly in 4Q.

These factors offset the drop in the performance of Radio LatAm (affected by evolution of currencies but remaining stable in local currency) and the fall of Media capital added value calls.

- Net bank debt has been reduced by 922 million euros in 2015 and the capital increase of 64 million euros subscribed by IMG is completed.
- In January 2016 PRISA has reached an agreement with some of its major creditors to carry out an issue of mandatorily convertible bonds into PRISA shares at 10 euros/share by swapping debt. This conversion will reduce debt and strengthen the capital for a minimum of 100 and a maximum of 150 million euros.

In 4Q 2015, the growth in revenues has been affected by the advancement of the institutional sales in Brazil which took place in the third quarter in 2015 and which in 2014 and previous years occurred in Q4 and by the strong FX volatility in 4Q versus full year, and by higher returns in Spain due to a greater campaign.

In 2014, PRISA **sold the Trade Publishing division** and therefore it has left its consolidation perimeter. From July 2014 onwards, this activity is **not part of the results** of the Education business of Prisa.

The impact of this transaction is included in the extraordinary items table above as Trade Publishing which belonged to Education business. This implies adjusted figures for the year 2014, eliminating such activity of education accounts. These items affect revenues and expenses and include the gain on sale and the goodwill impairment of the Trade Publishing activity in Brazil.

Additionally, in January 2016 Prisa has reached an agreement with some of its major creditors to carry out an issue of mandatory convertible bonds into ordinary shares by swapping debt for the company for a minimum amount of 100,185 thousand euros, for that there is an irrevocable commitment to subscribe, and up to 150,000 thousand euros.

This agreement is subject to the approval of the Annual General Meeting, and to obtaining certification issued as a special report for the Company's Auditor pursuant to the Corporate Enterprises Act and the mandatory report from an Auditor other than the company Auditor and appointed for that purpose by the Registry of Companies and the provision that there should be no material change in the financial situation of Prisa nor any suspension of or material change in the company's share price.
