

## Annual Results 4Q 2011

February 28th, 2012

# PRISA REACHED IN 2011 A RECURRING EBITDA OF 493.16 MILLION EUROS 

> Reported EBITDA reached 437 million Euros given extraordinary expenses from the personnel restructuring ( 77.2 million Euros)

The Group reports net losses of 451 million Euros having provisioned 253 million Euros for goodwill impairments (mainly in Portugal) and 183 million for fiscal matters under discussion

The good performance of the Pay TV business and Education activities, together with the increasing presence in Latin America, partly compensate the weakness in the advertising markets of Spain and Portugal

- Recurrent revenues reached 2,714.16 million Euros (-1.3\%)
- Recurring EBITDA margin reached 18.2\%, in line with that of 2010
- The Pay TV business grows in net subscribers, with a stable ARPU (41.1 euros) and a lower churn ratio (13.6\%). It reaches an EBITDA of 186.77 million Euros ( $+12.5 \%$ adjusted by non-recurring items)
- $\quad$ Santillana grows by $+12.2 \%$.
- $\quad$ The revenues in the Digital activity increase by $6.7 \%$. 63.7 million average number of unique monthly browsers (+25.3\% vs 2010).
- Latin America revenues grow by 15.9\%, and account for $24.3 \%$ of those of the Group. EBITDA from this region accounts for $38.6 \%$ of EBITDA of the total.
- Advertising revenues in Spain and Portugal reach 498.1 million Euros and represent 18.3\% of PRISA's revenues.
- Cost restructuring: The Group's management has accepted a reduction of $7 \%$ of its fixed salary.
- The efficiency plan has been completed: total investment of 94.8 million Euros for annualized savings of 64.5 million Euros.
- The financial debt has been refinanced, extending its maturity to 2014/15. The Group has now time and financial flexibility to focus on the improvement of its businesses. The refinancing agreement activated the mechanisms for the conversion of 75 million warrants by the Polanco family, Mr. Martin Franklin and Mr. Nicolas Berggruen, for a total amount of 150 million Euros (at a price of 2 Euros per share).

Madrid (28 ${ }^{\text {th }}$ February, 2012). Grupo PRISA (hereafter "PRISA" or the "Company") (NYSE: PRIS), the world's leading group in Spanish- and Portuguese-speaking markets in the fields of education, information and entertainment, today announced its financial and operational results for the year 2011. In the period, the Group achieved revenues of $2,724.45$ million Euros and an EBITDA of 436.91 million Euros. Adjusted EBITDA margin was stable (18.2\%)

The Chairman of the Executive committee of the Board and CEO Juan Luis Cebrián declared: "These results demonstrate the operating resilience of our businesses even in an environment with extreme economic cycle weakness. Santillana and the Pay TV business are examples of how it is possible to grow in the most adverse circumstances". He added: "We have undertaken a strong cost reduction effort. This, together with our increasing presence in Latin America, has partly mitigated the fall in the advertising markets of Spain and Portugal. The international revenues of PRISA account already for more than $32 \%$ of the total"
"Following a basic prudence criterion and especially given the very difficult situation that Portugal is going through, in our 2011 results, we have registered a provision for goodwill impairments of 252.94 million Euros. We have also registered provisions in our Income tax for 183 million Euros, to face a potentially negative outcome of several fiscal matters still under discussion, relative to tax deductions on exporting activities. However, we are still confident that the court will rule in our favour".

The Chairman of the Executive committee of the Board and CEO ended by highlighting that the agreement with the banks has provided PRISA with the financial flexibility which will allow it to focus its efforts on improving the operating performance of its businesses.

In line with the costreduction efforts, $92 \%$ of the Group's management has accepted, voluntary and indefinitely, a $7 \%$ reduction of its fixed salary.

## Consolidated earnings

The comparison of 2011 and 2010 results is affected by extraordinary items recorded under revenue and expenses both in 2011 and 2010. Therefore, to conduct a homogeneous comparison, we are presenting a pro forma profit and loss account adjusting the extraordinary items.
As for the exclusion of Cuatro from the consolidation perimeter, 4Q2010 results were already presented with Cuatro included as a discontinued activity, so in this sense the results of both years are perfectly comparable.

* Extraordinary items for revenues are recorded correspond in 2011 mainly to the sale of Canal Viajar, and are registered in the audiovisual division. In 2010 they correspond mainly to the Mediapro sentence and the sales of the Tres Cantos headquarters, Sogecine and Sogepaq.
** Extraordinary items for expenses correspond to redundancies from the efficiency plan which Prisa has undertaken since December 2010 as well as other items such as the FC Barcelona sentence. In 2010 they correspond to the redundancies from the efficiency plan and renegotiations with suppliers which are registered in the Audiovisual division.
In addition, although only impacting at EBIT level (not at EBITDA) there are impairments of the Media Capital goodwill (219 million Euros) and that of Prisa Brand Solutions, advertising marketer (33.34 million Euros), which are registered at group level.
*** Following a prudence criteria, Prisa has registered a provision of 183 million Euros to face a potentially unfavourable resolution in certain matters under discussion, mainly the tax deduction for exporting activities

The good performance in Education revenues, in pay TV subscribers from other platforms and the sale of audiovisual rights and programs has partially offset the drop in revenues from advertising, circulation and satellite subscribers. Without the extraordinary items recorded in the audiovisual area, revenues would be down 1.3\%:

Operating expenses in 2011, including amortization, depreciation and provisions, reached 2,760.19 million Euros. Total adjusted operating expenses declined by $0.7 \%$ in $2011(+1.1 \%$ in the fourth quarter standalone). The breakdown is as follows:

EBITDA was 436.91 million Euros, implying a decrease of $26.7 \%$ explained mostly by the extraordinary items recorded in both 2011 and 2010. Excluding these extraordinary items, EBITDA would have shown a $-1.7 \%$ decrease, with stable margins at $18.2 \%$, despite the difficult macroeconomic environment.

During 2011, the company has registered 252.94 million Euros for goodwill impairments which correspond mainly to an increase of country risk and decline of the advertising market of Media

Capital and changes in the management of the commercial activities re advertising in Prisa Brand Solutions.

Other Financial Results includes, among other concepts, the expenses generated from updating the liability registered for the present value of the dividend owed to holders of the convertible non-voting shares (further explained in the appendixes).

The Income Tax Expense includes a 183 million Euro provision, which has been registered following a prudence criteria, to face a potentially unfavorable resolution in certain fiscal matters still under discussion, mainly the tax deduction for exporting activities. All the necessary legal processes surrounding these claims still remain open.

Earnings, as calculated by the equity method, mainly included the $17.336 \%$ share in the result of Mediaset España, as well as the results of the Printing business and V-Me. In 2010, it includes a provision of $€ 80$ million to cover some risks and possible restructuring costs in associated companies.

Earnings attributable to minority interests are mainly explained by DLJ's $25 \%$ share in Santillana, the $44 \%$ minority interest in Canal+ and the $26.51 \%$ minority interests in the Radio business.

Net Profit, adjusted for extraordinary items (once we exclude the impact of the extraordinary revenues, the extraordinary operating expenses, the goodwill impairments and the provision on the income tax expense), has risen to a positive result of 1.62 million Euros, which compares to the 28.60 million Euros in 2010.

** Prisa TV includes the pay TV business and other related activities.
At Prisa TV (Canal+), adjusted revenues declined by $4.0 \%$, which is slightly less than the decrease of $4.2 \%$ as at September 2011 . This fall is explained by a smaller number of satellite subscribers (especially in Q2 and Q4, in which there was a weaker Christmas campaign and Canal+ suffered the impact of the FTA broadcasting of football matches such as the Real Madrid-FC

Barcelona), by slight variations in ARPU and by the impact of changes in the commercial model of iPlus and Canal+ Toros.

However, all key operating indicators have seen an improvement this quarter: net adds have grown by 53,858 in the year (compared to a fall of $-61,231$ in 2010). Satellite net subscribers have fallen by $-16,671$ (compared to a fall of $-72,949$ in 2010) and net subscribers from other platforms have grown by 70,529 (compared to $+11,718$ in 2010). ARPU has remained on average above 41 Euros (41.1 Euros compared to the 41.7 Euros in 2010). Finally, penetration levels of iPlus continue to grow and reached $28.7 \%$ by the end of 2011 (compared with the $17.2 \%$ of December 2010).

In Q4 standalone, there are also improvements in operating indicators: the fall in net subscribers of satellite ( $-18,130$ compared with the 7,040 growth of Q3 2011) has been compensated by the growth in subscribers from other platforms ( $+24,761$, compared with +34.380 in Q3) thanks to agreements with the telecom operators. The ARPU reached 41.5 Euros (vs 40.1 Euros in Q3).

Adjusted operating expenses, excluding amortizations and provisions, are down by $7.6 \%$ (compared to a $6.6 \%$ fall as of September), mostly due to renegotiation of contracts and the inclusion of costs related to the World Cup in 2010, which had an impact of 29.77 million Euros in 2010. As a result, adjusted EBITDA has increased by $16.2 \%$ (compared to the $11.5 \%$ growth as at September 2011).

Key operating indicators are benefiting from the change in the commercial strategy which has been implemented in the last few months and by the Canal+ multi-distribution agreements which have been signed with other operators (Telefónica, Orange, ONO and Jazztel).

As at December, the total number of subscribers was $1,838,432$, distributed as follows:

| Subscribers breakdown | Dec 2011 | Dec 2010 | Chg. Abs |
| :---: | :---: | :---: | :---: |
| Satélite (DTH) | 1.756.185 | 1.772 .856 | (16.671) |

| Total | 1.838 .432 | 1.784.574 | 53.858 |

Like in the last few years, the change in trend for DTH subscribers is maintained in 2011, with net new subscriptions increasing $0.4 \%$ and cancellations falling $-16.6 \%$ year on year:

The ARPU for DTH subscribers as of 4Q 2011 was 41.5 Euros, in line with the 41.7 Euros of 2010. The average ARPU for 2010 stood at 41.1 Euros, compared with the 41.7 Euros of 2010 on average. Churn has continued to fall and stood at $13.6 \%$, showing an important decrease compared to the $15.8 \%$ of the end of 2010 . The change in ARPU by quarter is as follows:

The number of subscribers and penetration of iPlus and Multiplus has continued to grow: as of December 2011 the number of iPlus subscribers was 503,202, up by 197,823 from December 2010, which implies a penetration of $28.7 \%$ (compared to the $17.2 \%$ penetration at December 2010 and the $25.9 \%$ on September 2011). As for Multiplus, as of December 2011 there were 238,772 customers subscribed to this service, which implies a penetration of $13.6 \%$, above the $12.8 \%$ penetration observed in September 2011 and to the 12.2\% penetration in June 2011.

## iPlus: Subscribers (in thousands) and penetration

## Multi+: Subscribers (in thousands) and penetration

Subscribers from other platforms totaled 82,247, on the back of the agreements which have been reached with other operators (Orange, ONO, Telecable, Jazztel and especially Telefónica) in the context of the Canal+ multi-distribution strategy in place.

Media Capital recorded in 2011 revenues of 224.36 million Euros and adjusted EBITDA of 42.61 million Euros ( $-11.3 \%$ ). During $4 Q$ 2011, there has been a further deterioration of the Portuguese advertising market, which has led to a weaker performance in Q4 standalone, with revenues which reached 57.08 million Euros and adjusted EBITDA of 13.33 million Euros ( $-32.0 \%$ )

Despite the weak macro-economic situation of Portugal, TVI, leading FTA operator in this country reached revenues of 151.43 million Euros ( $-4.4 \%$, vs $-0.6 \%$ in the first nine months of the year). Its advertising revenues have fallen by $10.1 \%$ compared to 2010 (vs $-6.6 \%$ in the first nine months of the year), showing the deterioration which we already anticipated when we published Q3 2011 results, although managing to outperform the FTA advertising market which fell in Portugal by an estimated $13.5 \%$. The increase in revenues from Call TV is still neutralizing the impact of the fall in advertising revenues.

TVI has maintained its leadership position, attaining an audience share of $34.5 \%$ for the full 24 hours (improving from the $34.1 \%$ of the first nine months of the year) and $38.1 \%$ in prime time (also improving slightly from the $37.9 \%$ of the first nine months of 2011).

Additionally the Audiovisual division has registered an impairment of Goodwill of 9.75 million Euros, which impacts Media Capital, which does not have an impact at Group level and which corresponds to the goodwill generated with the transfer of Plural.

All the Southern Area countries (which has grown by $+20.6 \%$ ) registered strong growth in their campaigns: Brazil (24.1\%), Argentina (+17.3\%), Chile (+13.6\%) and Colombia (+21.0\%).

In the Northern Area, Mexico has increased its revenues by $18.1 \%$ and Venezuela by $+27.5 \%$. In Spain, revenues have fallen by $-1.9 \%$ in 2011, which results from the weakness of Ediciones Generales (general publishing) down by $-30.5 \%$, mostly offset by the strong Education campaign in Spain (+8.6\% in 2011).

In 2011 the currency exchange rate has had a negative impact of 4.83 million Euros in the division's revenues (excluding this impact revenues would have grown by 12.9\%). In Brazil the currency exchange rate has had a positive impact (at constant currency, its revenues would have grown by $22.1 \%$ ). In Q4 the currency exchange impact has been negative by 6.5 million Euros at revenue level (excluding this impact, revenues would have grown $23 \%$ vs Q4 2010)

2010 results were impacted by the football World Cup (until August 2010) and the Colombia general elections (in May and June 2010)

Press revenues fell by $7.2 \%$ in 2011 to 390.01 million Euros. Adjusting by the football World Cup impact, revenues would have fallen by $6.3 \%$.

In 2011, in Spain's advertising market, Press has been the hardest-hit sector. As a reflection of this, advertising revenues for Press have fallen $-14.4 \%$ in the year, (with El País $-14.8 \%$ and As $-14.3 \%$ ). Revenue from circulation fell by $6.5 \%$, and the circulation of the newspapers broke down as follows:

Source: OJD. 2011 figures not audited.
El País reduced its circulation figures in 2011 by $-1.3 \%$ (compared to the $-5.5 \%$ fall in 2010), AS' circulation fell by $-6.0 \%$ (compared to a $-1.7 \%$ fall in 2010, but showing an improvement vs September, when it was falling by $-7.6 \%$ ), and Cinco Días saw its circulation fall by- $0.1 \%$ (compared to a $-6 \%$ fall in 2010).

Operating revenues also include 2011 revenues from tax deductions and subsidies for R\&D and other special events, which offset the lower contribution of promotions, which have fallen by $15.3 \%$.

EBITDA totaled 40.05 million Euros vs the 57.86 million of 2010 . This is mainly due to the fall in the advertising market and circulation figures, as well as the restructuring costs, which have reached 14.79 million Euros in 2011 (although most of the restructuring effort took place in the first half of the year). Excluding the restructuring costs impact, Adjusted EBITDA would have fallen by $5.4 \%$.

Additionally the Press division has registered an impairment of Goodwill of 7.75 million Euros, which do not have an impact at group level and which correspond to the goodwill generated with the transfer of the participation in Portuguese magazines.

## Digital

The Group's digital business revenue for 2011 totaled 55.06 million Euros, a $6.7 \%$ increase over the same period last year (in line with the increase observed in the first nine months of the year

Advertising revenue in this area totaled 31.01 million Euros, a $19.1 \%$ increase over last year, showing an improvement vs the $+16.8 \%$ of the first nine months of the year. Within Spain's advertising market, the online segment is the only one to have recorded significant growth in 2011.

The impetus the Group is placing on the entire digital area of each of its businesses is clearly reflected in increased traffic, which rose $25.3 \%$ on the year. The monthly average number of unique browsers of the Group's sites, in millions, changed as follows:

Source: Omniture site catalyst, Netscope, and Certifica.com.

The Group continues to promote its digital development across business lines in all its units with a very consumer-oriented model to offer more appealing, valuable market options for advertisers and to sell products more suitably, besides seeking new business development lines.

## Efficiency Plan

Since December 2010, Prisa has been undertaking an efficiency plan with the goal of right-sizing the company, rationalizing resources, and homogenizing and centralizing Group-wide processes. Prisa TV's Capex includes the acquisition of digital cards and decoders because of a change in the iPlus marketing model, from a sales model to one in which it is made available in exchange for a periodic fee. It also includes costs incurred in the processes of installing and activating new
subscribers and investments in new IT projects for the rendering of TV services. The capex in the Education area corresponds, not only to the investment in the production of text books, but also to the investments made in the Education systems which Santillana is commercializing in Latin America. Of note in the Digital area is the CAPEX investment to create a new digital multimedia platform to integrate content from the various business units, get better information about our consumers, and create new business models based on segmentation and serving networked communities.

The investment in working capital is due mainly to Prisa TV, and corresponds to extraordinary elements such as the sentences od ONO, Espanyol football club and Barcelona football club, the TVE canon, investment in decoders and payments of matured debt and promissory notes.

The increase in operating investments was mainly due to the fact that Canal+ changed the iPlus marketing model, to the investment in decoders, to investments in both text books and education systems in Santillana and to investment in creating a new digital platform.

Dividend payments in 2011 basically reflect payments to third parties by the Canal+ business. On the flipside, dividend income corresponds mainly to the $17.336 \%$ stake in Mediaset España.

Financing for subsidiaries includes a loan granted to the printing business.

In the international area, revenue by country was as follows:

## Appendix VIII. OTHER SIGNIFICANT EVENTS

1) Prisa signed an agreement with PortQuay West I B.V., a company controlled by Miguel Paes do Amaral, for the sale of $10 \%$ of Media Capital for 34.99 million euros ( 4.14 euros per share), $70 \%$ of that sum having been paid and the other $30 \%$ to be paid at a later date. Miguel Paes can increase his stake in the company by an additional $19.69 \%$ at the same price within one year. If this option is not exercised, Prisa has the right to recover the currently sold shares.
2) Canal+ acquired the broadcast rights to the UEFA Champions League and UEFA Super Cup for three seasons starting in August 2012.
3) In 2011, as a result of the partial implementation of the monetary capital increase, Prisa increased its capital with 883,138 shares of class A common stock, corresponding to the first twelve Prisa warrant exercise periods (exercise of 883,138 warrants at a price of 2 euros per share).

Also in 2011, conversion rights were exercised to convert a total of $14,776,160$ class $B$ shares into an equal number of class $A$ shares.
4) Prisa has paid a gross dividend of 0.014863 euros per non-voting convertible class B share corresponding to 2010 earnings. This gross total comes from a pro-rata of the minimum annual dividend ( $€ 0.175$ ), bearing in mind the issue date of these shares (Dec 1, 2010). The corresponding taxes have been deducted from the dividend total and the payment has been made on September 29, 2011 to all holders of class B shares at close of session on September 28, 2011.
5) The No. 36 First Instance Court of Madrid submitted in June, 2010 the temporary execution of the sentence passed in March this year, currently pending appeal before the Provincial Courts of Madrid, obliging Mediapro to pay 105 million euros to AVS, a subsidiary of Sogecable, plus 31 million in interest and expenses of the process and to deliver the rights of football clubs in the First and Second division of the Spanish League to AVS.

Following the declaration of insolvency and bankruptcy proceedings by Mediapro, which suspended the execution of the aforementioned Judgement, AVS has called in insolvency proceedings the restitution of audiovisual rights for football clubs. Insolvency administrators rejected the request. The petition was re-presented to the Judge in charge of the process, who also rejected the request. AVS has lodged a notice of appeal which is pending resolution before the Provincial Courts of Barcelona. Simultaneously, AVS has subsidiarily reported the pecuniary equivalent credit of the refund in the amount of 122 million euros which the insolvency administrators have recognized so far with contingent character. The Court has rejected AVS petition of considering them as ordinary being pending the resolution by the Provincial Court of Barcelona.

Finally, the total amount of credits that the insolvency administrators have recognized to AVS stands at over 330 million euros ( 97.3 as ordinary credit, 7.6 as a subordinate and 225 as contingent loans - which includes, as well as the aforementioned 122 million, the total corresponding to the very claim that resulted in the sentence, for the period of February 2008 to June 2009). This recognition is not firm, because there are several unresolved bankruptcy incidents on the credit rating, which AVS claims as ordinary in front of the Provincial Court of Barcelona, once the Court has initially rejected AVS petition.

On December $23^{\text {rd }} 2011$, the Mercantile Court num. 7 of Barcelona pronounced a sentence rejecting the opposition formulated by AVS, and approved the advanced proposal of agreement and ceasing the effects of insolvency. AVS has presented an appeal against the sentence of the Mercantile Court Num. 7 of Barcelona, and simultaneously against all the
resolutions issued during the Agreement, which according to the Solvency Law, are appealable in the current procedural phase, and which have rejected the incidents issued by AVS and destined to the correct integration of the asset and liability masses in the Insolvency process. These appeals are currently pending a solution by the Provincial Court of Barcelona.
6) PRISA announced in December 2011 the successful completion of the refinancing agreements of its financial debt, including the Syndicated Loan of May $19^{\text {th }}$, 2006, the Bridge Loan of December $20^{\text {th }}, 2007$, the Subordinated debt of December $20^{\text {th }}, 2007$ and a series of bilateral loans, which finished its formalization on the first days of January 2012.
The conditions of this refinancing agreement were the following:
a. The Syndicated Ioan was transformed into a Bullet loan, with maturity on March $19^{\text {th }}$, 2014. In addition, pending completion of certain actions, such as the issuance of a bond, the maturity could be further extended to December $19^{\text {th }}, 2014$.
b. The maturity of the Bridge loan, which counts with no partial amortizations, and the bilateral loans, extend their maturity to January $15^{\text {th }}, 2015$. Also pending the completion of the same actions as in the syndicated loan, the maturity can be extended to September $19^{\text {th }}, 2015$.
c. The Subordinated Ioan extends its maturity to January $16^{\text {th }}, 2015$ and September $20^{\text {th }}, 2015$, once the conditions to extend the other loans are met.
7) With the approval of the refinancing process, the mechanisms for the exercise of 75 million warrants by Timón, PRISA's reference shareholder, Mr. Martin Franklin, and Mr. Nicolas Berggruen, for the amount of 150,000,000 Euros into shares of Prisa, was activated. With the formalization and exercise of the warrants, the new terms of PRISA's debt come into effect.
