IN RELATION TO THE PROPOSAL FOR A SHARE CAPITAL INCREASE BY MEANS OF A CASH CONTRIBUTION EXCLUDING THE PRE-EMPTION RIGHT FOR SUBSCRIPTION OF SHARES APPROVED BY THE BOARD OF DIRECTORS AT THIS MEETING UNDER THE AUTHORIZATION GRANTED BY THE ORDINARY GENERAL SHAREHOLDERS' MEETING HELD ON JUNE 22, 2013 AS SET OUT IN ITEM NINE OF THE AGENDA**

**I. OBJECT OF THE REPORT**

This report has been prepared in relation to the share capital increase in Promotora de Informaciones, S.A. (“Prisa” or the “Company”) by means of cash contributions and excluding the pre-emption right for subscription of shares approved by the board of directors of Prisa on the date hereof, under the authorization granted by the Ordinary General Shareholders’ Meeting held on June 22, 2013, as set out in item nine of the agenda.

By virtue of such authorization, and as set forth in point II.1 below, the board of directors is entitled to, on one or several occasions, when and insofar as the needs of the Company thus require in the opinion of the Board itself, increase the Company’s share capital up to a maximum amount equivalent to Euro 33,177,281.40 (corresponding to a third of the share capital of Prisa, as recorded on June 22, 2013), being for this purpose entitled to issue the corresponding new shares, ordinary or preferred, including redeemable shares, with or without voting rights, with or without an issue premium, with the equivalent value of the new shares to be issued having any consideration for those share to consist of cash contributions pursuant to the provisions of article 297 of Royal Legislative Decree 1/2010, of July 2, approving the restated text of the Spanish Companies’ Act (*Ley de Sociedades de Capital*) (“LSC”). Likewise, with regards to any share capital increase to be approved under such delegation, the board of directors has been expressly conferred with the authority to totally or partially exclude the pre-emption right for subscription of shares.

Article 286 of the LSC, in relation to article 297.1 b) of the same act, requires the company’s directors to draft a report justifying the amendment of the company’s by-laws which might result as a consequence of the share capital increase.

On the other hand, articles 308 and 506 of the LSC require, for the purposes of the exclusion of the pre-emption right for subscription of shares within the framework of a share capital increase, that (i) any such decision is made in the interest of the company; and (ii) the nominal value of the shares to be issued plus, where applicable, the amount of the share premium, is equivalent to the fair value resulting from the report of the accounts auditor, other than the company’s accounts auditor, appointed for this purpose by the Commercial Registry.

In view of the foregoing and of the proposal for a share capital increase approved by this board, under the authorization granted by the general shareholder’s meeting, this report has been drafted by the board of directors of Prisa for the purposes of complying with the provisions of the above referred articles 286, 297.1 b), 308 and 506 of the LSC, with regards to two different aspects:

- (i) the first one, in relation to the share capital increase and subsequent amendment of the company's by-law (in compliance of the provisions of articles 286 and 297 of the LSC), and
- (ii) the second one, relating to the exclusion of the pre-emption right for subscription of shares (in compliance of articles 308 and 506 of the LSC).

Finally, this report includes the text of the resolution for the share capital increase approved on the date hereof by the board of directors.

Likewise, pursuant to the provisions of article 506.4 of the LSC, this report and the report to be issued by the accounts auditor appointed by the Madrid Commercial Registry, different to the Company's accounts auditor, on the fair value of the shares, the book value ("*valor teórico*") of the pre-emption right for subscription of shares proposed to be excluded and the reasonableness of the data contained in this report, pursuant to the provisions of article 308 of the LSC, will be made available to the shareholders and notified to the first General Shareholders' Meeting of Prisa to be held after passing the resolution for the share capital increase.

For the purpose of the above, it is hereby stated that, in order to facilitate and accelerate the process for the share capital increase, prior to the date hereof the Company has asked the Commercial Registry to appoint an accounts auditor different to the auditor of the accounts of Prisa, pursuant to article 308 of the LSC, in order for it to issue a report on the fair value of the shares, the book value ("*valor teórico*") of the pre-emption right for subscription of shares proposed to be excluded and the reasonableness of the data contained in this Report. As of the date hereof, such expert has not yet been appointed by the Commercial Registry.

(ii) Target of the share capital increase

The share capital increase is aimed at Consorcio Transportista Occher, S.A. de C.V. (“**Occher**”), Mexican company existing and incorporated by means of the public deed granted by the notary of Naucalpan de Juárez, Estado de México (México), on March 26, 2012, under the number 42,795 filed with the Public Commercial Registry of Distrito Federal (México) under the mercantile electronic paper number 420.296, with Key of the Federal Register of TaxPayers (“*Clave del Registro Federal de Contribuyentes*”) CTO120326UM0, which undertakes at this board of directors meeting in respect of Prisa the obligation to subscribe in full the share capital increase object of this report.

Occher is a company related to Roberto Alcántara Rojas, director of Prisa since February 24, 2014 and signatory of the Prisa shareholders’ agreement, as notified to the Spanish Stock Exchange Commission (*Comisión Nacional del Mercado de Valores*) (CNMV) on April 25, 2014 and the CNMV published at its web page on April 28, 2014.

(iii) Subscription period

The share capital increase must be fully subscribed and paid up within the ten calendar days following the date on which the report of the independent expert is issued in accordance with articles 308 and 506 of the LSC.

For these purposes, on the business day following the date on which the expert delivers its report to the Company, the Company shall notify Occher in writing that the condition referred to in section 3 below has been met, to which end it will attach a copy of such report, indicating it may proceed with the disbursement, within the period established.

(iv) Incomplete subscription

Given the subscription undertaking set out in the foregoing paragraphs and the corporate interest described in section III below, the possibility of an incomplete subscription has not been foreseen.

(v) Rights of the new shares

The new shares shall confer on their holders the same political and economic rights as the ordinary Class A shares of the Company currently in circulation, as from the date on which the corresponding share capital increase is registered in the Commercial Registry. The board of directors shall likewise agree to request the admission to trading of the shares, as set forth in the resolution proposal transcribed in section IV of this report.

**3. Condition for the subscription and disbursement of the share capital increase**

The subscription and disbursement of the share capital increase is subject to the obtaining of the obligatory report from the accounts auditor appointed by the Commercial Registry on the fair value of the shares, the book value (“*valor teórico*”) of the pre-emption right for subscription of shares proposed to be excluded and the reasonableness of the data contained in this report.

As a result, in the event this condition is not fulfilled within the 65 calendar days following the date on which the accounts auditor appointed by the Commercial Registry accepts its appointment, the resolution of the board of directors which has been approved on the date hereof, as well as this report shall be rendered void of effect.

**4. Exclusion of the pre-emption right for subscription of shares**

In accordance with the authorization granted by the Ordinary General Shareholders' Meeting of Prisa dated June 22, 2013, the board of directors approves the exclusion of the pre-emption right of the current shareholders of Prisa for subscription of shares, it being justified by the corporate interest of the Company, and, as a result, for the benefit of Prisa and its shareholders.

The justification of the exclusion of this right is described in section III of this report.

**5. Justification of the share capital increase**

The subscription and disbursement of the share capital increase of Prisa by Occher, on the terms and conditions set forth in this report, implies a significant benefit for Prisa and, consequently, for its shareholders, as a consequence of the strengthening of the Company's capital and financial structure arising from this share capital increase.

The group is focused at the execution of the refinancing plan entered into on December 2013 and announced to the shareholders at the Extraordinary General Shareholders' Meeting held on December 10, 2013.

The contribution of financial resources will be addressed to immediately reduce the level of indebtedness of the group improving its financial leverage and helping to fulfill the execution of its refinancing plan.

**6. Execution of the share capital increase and amendment of the Company's by-laws**

The share capital increase which is the object of this report will involve the amendment of article 6 of Prisa's By-Laws which, once the condition has been met and the share capital increase has been executed, will read as follows:

*"Article 6.- Share Capital.*

*6.1 The share capital is TWO HUNDRED AND TWO MILLION TWO HUNDRED AND THIRTY-TWO THOUSAND FIVE HUNDRED TWENTY FIVE EUROS AND TWENTY CENTS EURO (€202.232.525,2) and is represented by 2.022.325.252 ordinary Class A shares of EURO TEN CENTS (€ 0.10) nominal value each, numbered consecutively from 1 to 2.022.325.252.*

*6.2 The share capital is fully subscribed and paid up.*

*6.3 The Company may issue different classes of shares. Each class may have a different nominal value. When within one class several series of shares are created, all those comprising the same series must have the same nominal value."*

**III. REPORT FROM THE BOARD OF DIRECTORS FOR THE PURPOSES OF ARTICLES 308, 504 AND 506 OF THE LSC**

The board of directors of Prisa, in relation to the share capital increase which is the object of this report, has approved the exclusion of the pre-emption right for subscription of shares which would correspond to the shareholders of the Company, being authorized for these purpose, as stated in section II.1 above.

The board of directors of Prisa understands that the exclusion of the pre-emption right for subscription of shares is necessary in order for Occher to subscribe the share capital increase on the terms provided for in this report and, to such end, pursuant to the provisions of articles 308, 504 and 506 of the LSC, the board of directors informs as follows:

**1. The corporate interest requires the exclusion of the pre-emption right for subscription of shares**

The board of directors considers that the share capital increase which is the object of this report and the exclusion of the pre-emption right for subscription of shares are fully in compliance with the material requirements set out in the LSC and, in particular, with regards to the need for the exclusion to be required by the corporate interest of the Company.

This is so due to this transaction being particularly convenient from the perspective of corporate interest, as it will enable an increase in the Company's equity at a moment when Prisa intends to reduce its financial debt and, in the opinion of the board, having considered the potential dilution for the shareholders, the objective sought (strengthening of the structure and the balance sheet of the Company) and the means chosen are considered to be proportionate.

The board of directors believes that this share capital increase, with exclusion of the pre-emption right for subscription of shares, is the ideal procedure to allow such investment, for the following reasons:

- Strengthening of the balance sheet: the issuance of shares above the current market value in the current market environment will enable Prisa to significantly increase its equity and strengthen its balance sheet.
- Debt reduction: this issuance will enable Prisa to immediately reduce its debt level through the mechanisms established under the financing agreements currently in force, permitting the purchase of debt (with or without discount) by the Company with the funds it obtains as a result of a share capital increase of Prisa. Bearing in mind the current objective of Prisa, which consists of reducing its debt for a better continuity of the business, this share capital increase contributes significantly to achieving such objective, enabling the Company to reduce the level of indebtedness of the group to more favorable levels.
- Feasibility of the execution: a structure different to that of the transaction described herein, such as a share capital increase without the exclusion of the pre-emption right for subscription of shares or through an accelerated book building process, would delay the procedure of capturing resources necessary in the short term in order for the Company to be able to carry out the deleveraging and debt reduction process.

Furthermore, (i) the volatile and unforeseeable nature of the stock market suggests that the share capital increase resolution should be adopted and executed as soon as possible, which would not be feasible if any of the other alternative structures mentioned previously were chosen, and (ii) the issuance price (nominal and share premium) agreed and committed by Occher on the terms set out in this report would be difficult to be proposed and implemented in a share capital increase with a pre-emption right for subscription of shares.

- Cost saving: the costs of a transaction of this nature, aimed at one single investor identified before it being executed, are lower than those of the other transactions described herein above, as neither the payment of management, placement or underwriting fees nor any expenses associated with these types of transactions are required. The cost saving means a better use of the resources obtained from the share capital increase.
- Improvement in the market conception to which the group of the Company belongs: the entry of resources into the Company shows an improvement in the growth forecast of the Prisa group and greater trust in its strategy and the measures adopted within the debt reduction process, all of which is carried out with the aim of seeking the continuity of the business of the group.

## **2. Issuance price and cash consideration**

Article 506.4 of the LSC sets out that, in order for the Company's governing body to be entitled to pass a resolution for a share capital increase with the exclusion of the pre-emption right for subscription of shares, apart from this being required by the corporate interest, it is necessary for the amount of the nominal value of the shares to be issued plus, where applicable, the amount of the share premium to be equal to the fair value validated by the accounts auditor appointed by the Commercial Registry, other than the accounts auditor of the Company, as stated in its report, drafted for these purposes at its own responsibility.

Article 504 of the LSC establishes that, in case of listed companies, such as the Company, the fair value will be deemed to be the market value which, unless otherwise justified, will be presumed to be that established by reference to the stock market listing.

The average weighted listing of the Prisa share at the closure of the last session prior to the issuance of this report, i.e. on July 21, 2014, was 0.312 and the average weighted listing by movement of the ordinary Class A shares of the Company in the three-month period prior to July 21, 2014 (i.e. from April 22 until July 21) was 0.377.

Since the issuance price (nominal value plus share premium) of the share capital increase which is the object of this report is Euro 0.53 per share, i.e. 69% and 40.5% greater than the referred listed values, the issuance price envisaged meets the legal requirements described and is clearly above the fair value of the shares of Prisa.

## **IV. PROPOSAL FOR RESOLUTION OF A SHARE CAPITAL INCREASE**

The full text of the share capital increase resolution adopted by the board of directors reads as follows:

*“In relation with the proposal of “Share capital increase of the Company for a nominal amount of €18,867,924.50, through the issuance of a total of 188,679,245 ordinary Class A shares and with the exclusion of the pre-emption right for subscription of shares and delegation for the execution and formalization of the foregoing resolution” , the compulsory directors’ report is approved (hereinafter, the “directors’ report) drafted complying with the provisions established in sections 286, 297.1 b), 308 y 506 of the Spanish Companies Act and the following resolution is approved”:*

**(i) Ratification of the request for the appointment of an expert**

*The board of directors is aware that, with the intention of facilitating and accelerating the process for the share capital increase, prior to the date hereof the Company has asked the Commercial Registry to appoint an accounts auditor different to the auditor of the accounts of Prisa, pursuant to article 308 of the LSC, in order for it to issue a report on the fair value of the shares, the book value (“valor teórico”) of the pre-emption right for subscription of shares proposed to be excluded and the reasonableness of the data contained in the directors’ report.
